

Chapter 809. CHILD CARE AND DEVELOPMENT

Subchapter O. CHILD CARE TRAIN OUR TEACHERS (TOT) AWARD

40 TAC §§809.302, 809.303, 809.331, 809.332

The Texas Workforce Commission (Commission) proposes amendments to §§809.302, 809.303, 809.331, and 809.332 relating to the Child Care Train Our Teacher Awards.

The purposes of the proposed amendments to the Train Our Teachers (TOT) scholarship awards are to incorporate into those rules the provisions of House Bill (HB) 1309 enacted by the 77th Legislature, Regular Session and to address additional changes to enhance the delivery of the award.

Definitions of "economically disadvantaged community," "low-performing school" and "Child Care and Development Fund (CCDF) Subsidies" are added to clarify terms required by HB 1309. The criteria selected for defining economically disadvantaged community are based in part on a county's per capita income that falls below the state average and in part on the counties of residence of 1,000 or more children under 13 years of age at or below 150% of poverty. Both criteria serve as indicators of communities that are economically disadvantaged and are tied to low income levels of families. Using the criteria of 1,000 or more children under 13 years of age that are at or below 150% of poverty reflects communities in which there is a greater demand and need for child care services for more economically disadvantaged families than other communities. The definition of low-performing school is derived from the statutory and regulatory requirements set by the Texas Education Code and Texas Education Agency as established in HB 1309. The definition of Child Care and Development Fund Subsidies is a new term added by HB 1309 and is limited to those funds derived from CCDF.

Section 809.303(4) is changed to accomplish two objectives. The first change adds the requirement of HB 1309 that the facility in which the 18-month work requirement is performed: (1) accept CCDF subsidies; and (2) be located in an economically disadvantaged community or within the attendance zone of a low-performing public school campus. The second change allows the 18-month work requirement to begin at the time of the award. The reason for the second change simplifies administration in tracking compliance with the requirements of the award.

Section 809.303(3) is changed to require that an award recipient must be employed in a child care facility that meets the HB 1309 requirements in order to be eligible to receive a TOT award. The reason for this change is to alleviate turnover among award recipients that, at the time the award is granted, may be employed in facilities that do not meet the HB 1309 stipulations for the 18-month work requirement. The Commission's intent is to strengthen quality child care by reducing staff turnover and promoting continuity in the employment of TOT recipients, while at the same time enabling both child care teachers and their current employers to receive the benefits of the TOT awards. Section 809.331(c) was deleted to conform with the changes reflected in §809.303(4) because the work requirement beginning at the time of the award would be verified at the time of the award rather than after the completion of the educational activities.

Section 809.332(a) adds language to conform to changes reflected in §809.303.

Randy Townsend, Director of Finance, has determined that for each year of the first five years the rule will be in effect, the following statements will apply:

There are no additional estimated costs to the state and to local governments expected as a result of enforcing or administering the rule;

There are no estimated reductions in costs to the state and to local governments as a result of enforcing or administering the rule;

There are no estimated losses or increases in revenue to the state or to local governments as a result of enforcing or administering the rule;

There are no foreseeable implications relating to costs or revenue of the state or local governments as a result of enforcing or administering the rule; and

There are no anticipated economic costs to persons required to comply with the rule.

Mr. Townsend has also determined that there is no anticipated adverse impact on small businesses as a result of enforcing or administering the rule because small businesses are not regulated or required to do anything by the rule. James Barnes, Director of Labor Market Information, has determined that there is no significant negative impact upon employment conditions in this state as a result of the proposed rule.

Donna Garrett, Director of Child Care and Development, has determined that for each year of the first five years the rule is in effect, the public benefit anticipated as a result of enforcing the rule will be to provide information and increase the number of child care teachers and improve the quality of child care in Texas.

Comments on the proposal may be submitted to John Moore, Texas Workforce Commission Building, 101 East 15th Street, Room 608, Austin, Texas 78778, (512) 463-3041. Comments may also be submitted via fax to (512) 463-
